# HOW UKRAINIAN WATER COMPANIES WORK DURING THE WAR

# PJSC "KYIVVODOKANAL"

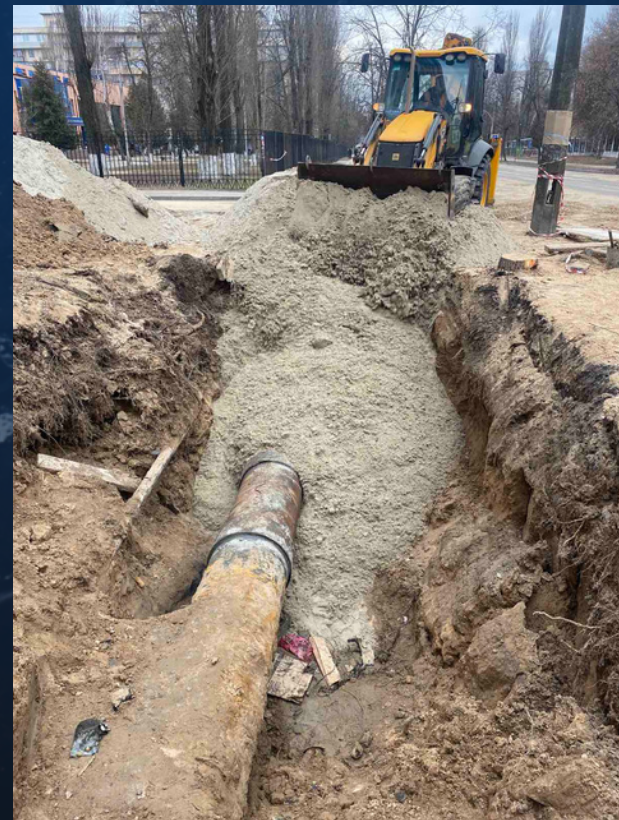

While the children of PJSC "Kyivvodokanal" (hereinafter referred to as "the Company") employees along with other children in the capital of Ukraine are forced to hide from ballistic missiles and bombs in shelters, all services of the Company continue to work as usual.

## PJSC "KYIVVODOKANAL"

- Emergencies on the water supply and sewerage facilities are eliminated in a timely manner meanwhile water quality is constantly monitored.
- The Company is provided with reagents for water disinfection in sufficient quantities.

## МЕ "KHARKIVVODOKANAL"

The Kharkiv city's civilian infrastructure as well as water supply and sewage facilities under constant missile strikes since the first day of the Russian aggression.

Houses and sometimes even districts of the Kharkiv city remain without water supply.

## МЕ "KHARKIVVODOKANAL"

Notwithstanding the danger, the company's emergency crews repair water supply and sewage networks every day and restore the water supply as quickly as possible.

Special attention is being paid to buildings where bomb shelters are located, particularly to subway stations, hospitals and other administrative institutions which are now operating.

## MKP "MYKOLAIVVODOKANAL"

As a result of mortar shelling, the technological equipment of sewage treatment facilities of the Mykolaiv city which is located nearby the village of Galitsinove is damaged.

PRELIMINARY NUMBER OF DAMAGES  
IS ACCOUNT OF

**5,5** million UAH

# MKP "MYKOLAIVVODOKANAL"

Due to the said shelling, the company's buildings were repeatedly left without electricity, which, in turn, led to interruptions in the city's water supply.

The staff of the Company has been carrying out restoration work 24 hours a day.

## ME "CHERNIHIVVODOKANAL"

As a result of the bomb attack,  
one of the water pumping stations  
was destroyed and the city's water  
supply was cut off.

**FOUR WORKERS OF THE COMPANY  
WERE KILLED.**

## ME "CHERNIHIVVODOKANAL"

The repair base and equipment of the Company had been completely destroyed as a result of air strikes. Due to the shelling, water supply networks and power lines are damaged, de-energizing water supply facilities.

Being under fire, the Company's employees are putting every effort to ensure the continuity of water and sanitation services.

## МЕ "ОБЛВОДОКАНАЛ" (ZAPORIZHZHYA REGION)

As a result of the shell strikes of the sewage treatment facilities of the Vasylivka Operational Department of Water Supply and Sewerage (located in Verkhnya Krynytsia village), the administrative building, the building of the sewage pumping station №1 were destroyed and the power supply line was damaged.

Even in the case of restoration of electricity supply, the operation of treatment plant is considered impossible since the building and equipment of the sewage pumping station №1 need basic restoration.

**WASTEWATER FROM THE VASYLIVKA CITY IS NOW FLOWING TO THE DNIPRO RIVER WITHOUT BEING TREATED.**

## ME "MISKVODOKANAL" (SUMY CITY)

The Company's employees are continue working to ensure sustainable water supply to the city.

Due to the air strikes the supply of the electricity to the water supply facilities have been repeatedly disrupt. However, specialists of the Company have been putting every effort to promptly restore the water supply.

## МЕ "ZHYTOMYRVODOKANAL"

As a result of the rocket-bomb strikes the administrative building and the motor transport workshop of the Company were damaged.

Notwithstanding the attacks the staff of the named company continues its work. Eliminating emergencies on the water supply and sewage networks the Company provides the city with drinking water and sewerage services.

## МЕ "KHERSONVODOKANAL"

The Company continues to provide water supply and sewerage services.

Emergency crews of the water supply service and the dispatch service work. Constant water quality control in the Kherson city's water supply networks is being carried out properly.

## "INFOXVODOKANAL" (ODESA CITY)

As well as all staff of all companies in Ukraine now, the employees of said Company is working in Martial Law in an enhanced mode 24/7.

The drinking water for Odessa City is being disinfected on European equipment and its quality is being monitored round the clock.

Not only does the Company provide the city with drinking water, but it also helps the territorial defense and units of the Armed Forces of Ukraine with trucks and sand.
